

Please protect the FCC's Open Internet Rules.

Keep the FCC Title II classification.

Don't let ISPs have the power to block websites, or split the Internet into "fast lanes" for companies that pay and "slow lanes" for the rest.

That is censorship. The giant ISPs have already shown they will throttle competition and independent voices if the FCC lifts the rules. This hurts consumers and businesses large and small.

Protect net neutrality and the open marketplace that has enabled millions of small businesses to grow and thrive. Do not allow the giant ISPs to charge fees for website delivery that would make it harder for blogs, nonprofits, artists, and others who can't pay up to have their voices heard.

I'm sending this to the FCC's open proceeding, but I worry that Chairman Pai, a former Verizon lawyer, has made his plans and will ignore me and millions of other Americans.

So I'm also sending this to my members of Congress. Please publicly support the FCC's existing net neutrality rules based on Title II, and denounce Chairman Pai's plans. Do whatever you can to dissuade him.

Thank you!
